

## Special thinner for Rayston Fire 1 fire break coating

### DESCRIPTION

Thinner which has been specially formulated to decrease viscosity and helps Rayston Fire 1 to be applied. It is a mixture of aromatic thinners.

### APPLICATIONS

Thinner for Rayston Fire 1. It can also be used for other products or lacquers soluble in aromatic thinners.

### TECHNICAL DATA

#### PRODUCT INFORMATION BEFORE APPLICATION

Colour	Colourless. Transparent.
Specific weight	0,87 grs / cc. $\pm$ 0,05
Flash point:	25° C.
Auto ignition temperature:	463° C.

### APPLICATION METHOD

Add to paint and coatings to be diluted thoroughly to get an homogenous mixture. Use in well ventilated areas. Relevant prevention measures for handling flammable volatile thinners should be taken.

### PRECAUTIONS

Application should be performed with a plentiful air supply or with ventilation systems designed for this purpose.

Personal safety measures should be taken in order to avoid ingestion, inhalation or contact with the skin.

The normal precautions for fire prevention should be taken. Keep container tightly sealed after use. Do not pour waste down the drain.

Storage stability: 1 year in their original, sealed containers, in good storage conditions.

### OTHER INFORMATION

The information contained in this Technical Data Sheet, as well as our advice, both written as verbal or provided through testing, are based on our experience, and they do not constitute any product guarantee for the installer, who must consider them as simple information.

We recommend to study deeply all information provided before proceeding to the use or application of any of our products, and strongly advise to conduct tests "on site" in order to determine their convenience for a specific project.

Our recommendations do not exempt of the obligation of installers to deeply study the right application method for these systems before use, as well as to conduct as many preliminary tests as possible should any doubt arise. The application, use and processing of our products are beyond our control, and therefore under the exclusive responsibility of the installer. In consequence, the installer will be the only responsible of any damage derived from the partial or total in-observation of our indications, and in general, of the inappropriate use or application of these materials.
